

2003 Fountaine Pajot Belize 43 Maestro

Fountaine Pajot and CYOA have set high standards for themselves with this model. The Belize 43 Maestro's hull and deck plan was designed by naval architect Michel Joubert, with the interior accommodations and finish designed by Olivier Flahault. It is easy to handle, fast under sail, and a welcome addition to our fleet.

Joubert has specified 1195 square feet of sail for the Belize 43, making her one of the fastest in her class. However, the sails are easy to hoist and haul thanks to the double purchased, fully battened, mainsail on ball bearing batten cars and the genoa furler.

The deck of the Belize 43 offers large foredeck netting for sunbathing, stargazing and dolphin watching. The cockpit will accommodate up to twelve people for entertaining with easy access to the stern boarding areas for quick dinghy escapes. The cockpit table accommodates six for al fresco dining and the extra large custom made bimini top provides excellent sun protection.

The interior spaces are bright, airy and wide open. The circular dinette to port seats up to eight and is joined to the starboard galley with a service bar within easy reach for meals and entertaining. The galley is fully equipped with fridge/freezer, double stainless steel sinks, blender, toaster, microwave, LPG cooktop and oven, pots, pans, dishes, cutlery and wine glasses. She is fully air conditioned and is equipped with a generator and inverter.

The sleeping cabins are well ventilated, and feature fans and reading lights. Each cabin has at least one hull opening window, overhead hatch, hanging locker, and storage for soft duffel bags. The single bow cabins can be accessed from an opening door in the forward cabins, or kept private by use of the deck hatch for ingress and egress. This 3-cabin owner's suite version has 2 double cabins to port that share one head and a large private suite to starboard with couch, lavatory and separate shower stall.

Electric anchor windlass, RIB tender with outboard engine and Raymarine instruments round out the equipment package with full instrumentation including GPS and autopilot. The CD stereo has speakers in the salon and the cockpit.

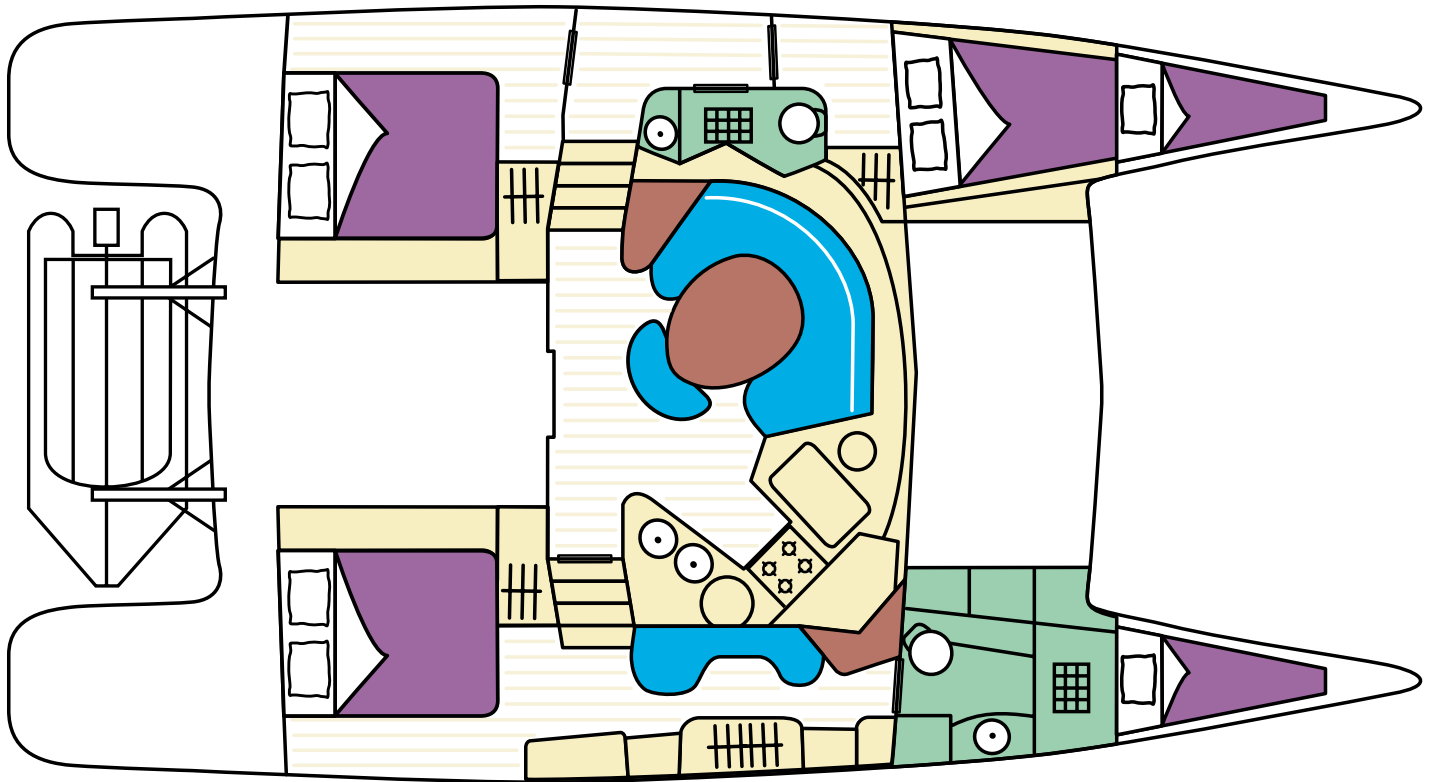

The Belize 43 Maestro is now available for charter. Call CYOA at 1-800-944-2962 for availability, and schedule your dream vacation today!
